Letter from the President

Hello Everyone:

We are so proud to be a voice for Missouri Adult Day Services Association (MoADSA) Providers and for the participants that we all serve every day. We strive to represent those who have entrusted their voice to us and work hard with all the State Agencies to ensure that we are represented. Over the last few years, we have worked together with key legislators, policy makers, and administrators to understand and help to implement changes beneficial to the providers across the state. As we are now operating under a new administration in the capitol, our direction has been focused more on preserving and enhancing what we are able to offer to our clients. We are positioning ourselves to be able to handle the challenges of the future so that we can continue to meet the needs effectively for our day care participants across the State.

We are very excited to be able to continue our relationships with Missouri Medicaid and Audit Compliance (MMAC), Department of Health and Senior Services (DHSS), Department of Mental Health (DMH) and the Department of Labor – Division of Employment Security. As always, we welcome the involvement of more State Agencies in the implementation of new events, education and cutting-edge technology.

It has been a pleasure to serve on the board, first as a Board Member-at-Large, then as Vice President and now as President. We have accomplished much, and together we can have a greater impact! New providers are reaching out to us on a continuous basis, and we look forward to them becoming established and involved with MoADSA. We will continue to promote group and regional meetings, whether virtual or in-person, whenever possible to meet the needs of providers all around Missouri.

MoADSA is expanding its services to providers and we look forward to increased membership and involvement with legislative initiatives so that our voices, and the voices of the people we represent, continue to be heard. We are excited to begin renewal and growth in 2021-2022.

Many thanks to everyone who has worked tirelessly to help MoADSA be successful.

Best Regards,

Janice Schenewerk

Janice Schenewerk, President
Missouri Adult Day Services Association

Mission Statement

“It is our mission to support the needs of individuals with developmental disabilities and their families, through an individualized plan, in reaching optimal health, independence, advocacy, community involvement and quality of life.”

What is an Adult Day Care Center?

Adult day services are a professional care setting in which older adults, adults living with dementia, or adults living with disabilities receive individualized therapeutic, social and health services for some part of the day. Adult day services centers provide a coordinated program of professional and compassionate services for adults in a community-based group setting. Adult Day Centers (ADC) generally operate during normal business hours, five days a week. Some programs offer services in the evenings and on weekends. Although each facility may differ in terms of features, these general services are offered by most ADCs: social activities; transportation; meals and snacks; personal care and therapeutic activities.

Adult day care centers can be public or private, non-profit or for-profit. The intent of an adult day center is primarily to:

- Provide older adults an opportunity to get out of the house and receive both mental and social stimulation
- Serve nutritious meals and accommodate special diets, and typically include an afternoon snack
- Give caregivers a much-needed break to attend to their personal needs, or to simply rest and relax

Who Uses Adult Day Services?

- Adults, 18 and over:
 - ❖ who are physically, socially, and/or cognitively impaired or require personal care
 - ❖ with disabilities who cannot be left alone, but do not require 24-hour institutional care
- Individuals who can benefit from professional services and social and recreational activities

Services of Adult Day Centers

Adult day centers provide a comprehensive range of services to meet the individual needs of participants and their families such as:

- Professional nursing services along with physical, occupational and speech therapy
- Individual treatment plans targeting the needs of each participant
- Social and recreational activities to provide physical and mental stimulation
- Meals
- Transportation door-to-door from home to the center
- Support groups for clients and caregivers
- Coordination with other service providers to gain information and referrals, and supportive counseling with trained social workers
- Ancillary services may include podiatry, hair care, bathing, etc.

Adult Day Programs

- Promote the individual's maximum level of independence
- Maintain the individual's present level of functioning as long as possible, preventing or delaying further deterioration
- Restore and rehabilitate the individual to his/her highest possible level of functioning
- Provide support, respite and education for families and other caregivers
- Promote socialization and peer interaction
- Serve as an integral part of the community service network and the long-term care continuum

Choosing an Adult Day Center

Key Considerations:

1. Determine needs – what specific services are important to the person using the center: safe, secure environment; social activities; assistance with daily living skills; therapies; health monitoring; nutritious meals; exercise and/or specialized care such as dementia care?
2. Locate an adult day center – Search centers at NADSA's database (www.nadsa.org); call your local Area Agency on Aging at 1-800-677-1116; ask at a local senior center or organizations serving persons with developmental disabilities and contact the Missouri Adult Day Services Association at www.moadsa.org or 573-634-3566.
3. Make an appointment to visit the centers to see which might best meet your family member's needs.
4. Do not be afraid to ask questions. Go to www.nadsa.org and print out NADSA's site visit checklist beforehand.
5. Check references. Talk to two or three people who have used the center you are considering. Ask for their opinion.
6. Try it out. Select a center and give it a try for a few days. Keep in mind that it often takes several visits for a new participant to feel comfortable. Inform staff of any special needs or concerns your family member has.
7. Take care of yourself. Relax knowing your loved one is being well cared for. Always feel free to check in with the center and ask questions.

Visit <http://www.nadsa.org/wp-content/uploads/2015/08/Site-Visit-Checklist-for-the-web.pdf> for more helpful hints.

Please contact the Department of Health and Senior Services if you have questions or desire additional information regarding licensure of Adult Day Services providers.
